Description. Edited by two of the most respected international relations scholars, International Politics places contemporary essays alongside classics to survey the field's diverse voices, concepts, and issues. Challenging students to use original scholarship to recognize and analyze patterns in world politics, this bestselling reader considers how to effectively understand politics under governments and beyond.

Robert Jervis - SIWPS

Jervis describes the process of perception (for example, how decision makers learn from history) and then explores common forms of misperception (such as overestimating one's influence). He then tests his ideas through a number of important events in international relations from nineteenth- and twentieth-century European history.
